

KIDS TALK

Seminar from students, for students!
(Prof's only on invitation 😊)

Goals:

- Learn about ongoing research
- Encourage scientific exchange
- Establish a culture of scientific discourse

Who:

All **undergraduate** and **graduate students** as well as **postdocs** are welcome to join the discussions.

When:

Every second Friday, **10:00 am, in room 46-387/388**
starting April 25th

Topics:

Topological insulators, magnon gases, spintronics, magnetic microstructures, spin dynamics, spin waves...
